

To Whom It May Concern:

My name is Steve Wright and about 8 months after the Hurricane Ike took the beach house that my wife and I owned we came across Mr. Mike Walz. Mike (as I like to call him) talked to us about building a house but my wife and I were very skeptical due to it being right after the storm and not knowing anything about Mike. After talking to Mike we found out that yes he's here to make a living but not to take advantage of anyone.

The reason I say that is when we sat down with Mike he told us to put down everything we wanted in the beach house and not to hold back. When we did that he gave us a price and after picking up my jaw from the floor he said now let's get to work. He told us to now start removing some of the things that we did not need and he helped us on some of the items such as going with round pylons instead of square ones and that saved us a bunch. Plus some of the items we thought we wanted he informed us that after a short time it wouldn't work down at the beach such as metal light fixtures on the porch.

Now the main reason we were able to build a beach house right after the storm, Mike informed us that some of the things that we wanted could wait until we had the money and he was right.

Just after the first of the year (February 2014) we contacted Mike about putting a wrap-a-round porch on the beach house. I worked with some other contractors that told me it couldn't be done and only one that said he could do it but the price was too high. Well I should have called Mike first but I did not think he did porches just new homes, boy was I wrong. So I called Mike and he was a little upset that I did not contact him first but still he took the job on. Not only did Mike finish the porch but came in a lot lower than the one contractor that I got a price from.

Now I have a porch that I can walk around my beach house, wash the windows and maintain the whole exterior of the house. The porch looks great and we have had more compliments from neighbors and friends.

For those that need a house that is professionally built, a porch, stairs, etc. and want to work with a friendly Christian family that live on the peninsula and are just all around good folks I would refer them to Mike.

Feel free to contact me at 281-787-7775 if you have any questions about our beach house or new porch.

Yours truly,
Steve Wright
